

F.R.Ed Talk™
Future Reality Education

Students!
Anxious about stepping into the commercial world?

Businesses!

Concerned your current skills aren't enough for the future?

F.R.Ed Talk™ is here – 23rd October 2019.
Learning – Networking - Inspiring

The first ever Future Reality Education (F.R.Ed) Talk will cover all the things your tutors couldn't tell you about your transition to the commercial world.

If you're in business, the talk will refresh and re-ignite all that learning that's served you well.

Combine this with networking and this talk will bridge the gap between Academia and Business.

F.R.Ed Talk™

Future Reality Education

Why this event:

Loaded with “gold nuggets” and essential business advice, this event will inspire Students and business owners / representatives alike.

It will also give you lots of opportunity to network, make new connections and to learn from many others, from all stages in their careers – without fear of being sold to, hounded for a job / internship or made to feel inadequate in any way.

Our Speakers:

Stephen J. Whitton renowned and acclaimed Speaker, Conference Host and Trainer and works with audiences internationally to bring about learning, change and adapted behaviours. Specialising in all things communication for the business world.

Matthew Whitton is an entrepreneur and inspiring speaker, who also happens to be one of the first “millennials”. His no non-sense, pragmatic approach helps businesses adapt to the changing expectations of both future employees and their customers. He brings out people’s best version of themselves.

**Book your place now for this inaugural and inspiring event
23rd October 2019, Buckingham.**
